Trophy Club Municipal Utility District No. 1 Receives Superior Public Water System Rating from Texas Commission on Environmental Quality

(TROPHY CLUB, Texas)—The Trophy Club Municipal Utility District No. 1 (Trophy Club MUD) has been recognized by the Texas Commission on Environmental Quality (TCEQ) as a Superior Public Water System in recognition of its high-quality waterworks operation for customers in the town of Trophy Club, TX and the Solana development in Westlake, TX.

The Superior Public Water System recognition is awarded to districts that maintain a high level of public health protection and customer service while providing clean, safe drinking water to their customers. Trophy Club MUD also provides wastewater and sanitary sewer services to its customers.

Previously, Trophy Club MUD received a Superior Public Water System rating recognition for more than 10 years from the Texas Natural Resource Conservation Commission, TCEQ's predecessor.

“This designation tells us that we are providing high-quality clean, safe and reliable water,” Jennifer McKnight, district manager of Trophy Club MUD, said. “We also take pride in offering our customers fair, stable rates that are some of the lowest in the region.”

The requirements for Superior Public Water System recognition include:

- The MUD's physical facilities comply with all state requirements and are well maintained.
- The MUD exceeds personnel requirements both in number of personnel and in the level of their certifications.
- The MUD's microbiological record for the previous 24 months shows no violations of the drinking water standards.

-More-

- The quality of MUD water exceeds both primary and secondary drinking water standards.
- MUD operations comply with state statutes and exceed minimum acceptable operating practices.
- MUD capacities exceed minimum water system capacity requirements.
- The MUD has sufficient wells and water pumps to provide average daily consumption with the largest well or pump out of service.
- The MUD provides clean, safe water to their customers at one of the most economical rates in the region.
