Re: UCMR3 Data Report

Dear UCMR Contact:

Enclosed you will find the data resulting from the analyses of samples collected under the third cycle of the Unregulated Contaminant Monitoring Regulation (UCMR3). The information presented should be self-explanatory, but there are clarifying points in the footnotes of the data report.

A copy of these results has been sent to your state. Please remember that if you are a community water system (CWS), then any positive results (i.e., results at or above the minimum reporting levels) must be reported in your Consumer Confidence Report (CCR). All systems must notify persons they serve of the availability of UCMR results.

EPA's Technical Support Center has reviewed all the quality control checks associated with these results. Should you have any questions concerning these results, please contact our implementation support contractor, Great Lakes Environmental Center (GLEC), at 1-800-949-1581 within 30 days of receiving this letter. Thereafter, these data will be considered final and will be forwarded to EPA's National Contaminant Drinking Water Occurrence Database (NCOD). Thank you for your continued cooperation with UCMR3.

Sincerely,

A handwritten signature in black ink that reads "Gregory J. Carroll".

Technical Support Center
